<b>Title:</b>	General Practitioners
<b>Reports to:</b>	Clinical Operations Director
<b>Direct Reports:</b>	2
<b>Status:</b>	Consultancy
<b>Duty Station:</b>	Kigali, Rwanda

### 1. About the Company

EDPU Africa headquartered in Kigali, Rwanda and operates a preventive platform locally with a focus on inclusive and affordable early detection and prevention of non-communicable diseases. The EDPU technology offers the possibility to complete a comprehensive preventive healthcare file including all exams and to receive treatments recommendations in one run increasing thereby the comfort for the patient and thus the compliance of the patient towards preventive healthcare. In addition, EDPU, which is a 'plug & play' unit, is easily adaptable to any space in a care provider facility fostering a full integration of patients care across health posts, health centers, clinics and hospitals (if applicable) and can be fully operated by a trained nurse to decrease economic burden considerably. The mobile version of the unit enables reaching rural areas or specific locations with dense risk categories.

### 2. About the Role

To lead the cohesive deployment of the EDPU solution within Rwanda's public and private sectors, we are recruiting General Practitioners (GPs). Overseeing a team of two professionals and collaborating with various internal and external stakeholders across diverse geographical and cultural backgrounds, GPs will play a pivotal role in ensuring the smooth integration of EDPU technology within the healthcare system in Rwanda.
